

Taste is a matter of tobacco quality.

We state it as our honest belief that the tobacco used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.

An Irish Lawyer

An Irish lawyer being asked how he accounted for his great success before a jury, replied:

"I make um understand."

First I tell um what I'm going to tell um; then I tell um, then I tell um what I told um."

That is What

Harrison J. Norton

Has been doing for thirty odd years, and yet some people can't be made to understand. What would an Irish lawyer or anybody else tell the man who argues that because he never had a fire he's never going to.

"CAREFUL CROSSING"

Safety First Campaign Will Begin June 1.

Topeka, Kan., May 1.—A safety first campaign of national scope will be conducted for four months beginning June 1, and continuing until October 1, by all Class 1 railroads in the United States through the American Railway Association. It has been announced here by Isaac Hale, safety superintendent of the Santa Fe and chairman of the information committee of the campaign.

The safety first drive will be known as the "Careful Crossing Campaign" and will have for its chief purpose the reduction of accidents at railroad crossings. Posters bearing the slogan, "Cross Crossings Cautiously" will play an important part in the campaign, according to Mr. Hale. It is proposed to furnish each railroad with ten posters for every mile of track in the system.

Civic organizations in all parts of the country will be asked to assist in the drive as well as other transportation companies, including electric railways, motor and bus lines, Mr. Hale said.

Complete plans for the campaign have not been worked out, he reported, but will be decided upon at the annual convention of the safety section of the American Railway Association in Chicago, May 2, 3, and 4.

LOOKING UP WAR RECORDS

Member of Adjutant General's Office Goes to Washington.

Montpelier, May 1.—Miss Helen Harris of the Vermont adjutant general's office left today for Washington, D. C., to look up the service records of about 10 per cent of the residents of this state who served in the World War, and whose records were not sent here from the office of the adjutant general of the United States for this purpose. The board of control authorized the trip at its meeting here on Thursday.

These records can not be obtained any other way. About 90 per cent of the records have already been obtained. Others to be obtained include records of some men who gave addresses outside Vermont during the war, but who were in reality legal Vermonters and have received state pay for their services. The state pay applications are still coming in to the office, many having learned of the possibility of obtaining the pay.

NEW FRENCH AMBASSADOR

Count de la Rocca to Succeed Jusserand at Washington.

Paris, May 1. (Associated Press)—Count Peretti de la Rocca, political director of the foreign office, is likely to succeed Jean J. Jusserand as ambassador to the United States as soon as the former can be spared by Premier Poincaré.

CONCERNING DOGS

The dog is placed at the feet of women in sculpture to symbolize affection and fidelity.

David Lawrence, hero of a popular old English tale, had a dog which was so lazy that it leaned its head against a wall when it barked.

The expression, "dog in the manger," is applied to a churlish person who will not use what is wanted by another nor let the other use it.

In the Far East the dog still is held in abhorrence as a scavenger of the streets, and the appellation "dirty dog" is the superlative of disdain.

Barry, the famous mastiff of Great St. Bernard's, in the early part of the Nineteenth century, was instrumental in saving the lives of 40 Alpine travelers.

A dog at the feet of a Crusader was symbolic of the fact that the Crusader followed the standard of the Lord as faithfully as the dog follows the footsteps of his master.

Cerberus, according to Roman mythology, was the three-headed dog guarding the entrance to the infernal regions. Hercules dragged the monster to earth, but released him.

"Barking dogs never bite" had its origin in the statement that dogs in their wild state never bark, but howl, whine and growl. Barking is an acquired habit and, it was believed, was no indication of a savage temper.

"Dog-watch" is a corruption of "dodge-watch" and has no relation to dogs. In seafaring two short watches, one from 4 o'clock to 6 and the other from 6 to 8 in the evening, were introduced to dodge the routine or prevent the same men always keeping watch at the same time.

ARKANSAS "MEWSINGS"

The man who won't listen to reason is usually thinking the same thing about you.

Mighty bad to fall by the wayside, but it's worse than bad to lie there and holler, when you might rise and run.

The lad who is always telling you that banks are not safe is the same fellow who never has anything to put in them.

The summer dresses are to be tight with loose effect. They must expect them to look like a girl who has had too many cocktails.

Don't like that expression, "Prosperity's just 'round the corner." Prosperity has been cornered too many times by a willful group of watchful waiters.

Don't stop to measure happiness, but if you do, don't worry when it runs over the rim—for some poor soul'll get it on the lonesome way.—Arkansasaw Thomas Cat.

The old, built-in-the-wall oven our ancestors used were crude and clumsy compared to those we have today. The modern types of ovens and ovens have made cooking and baking vastly easier.

Better and Easier Baking than our ancestors ever dreamed of

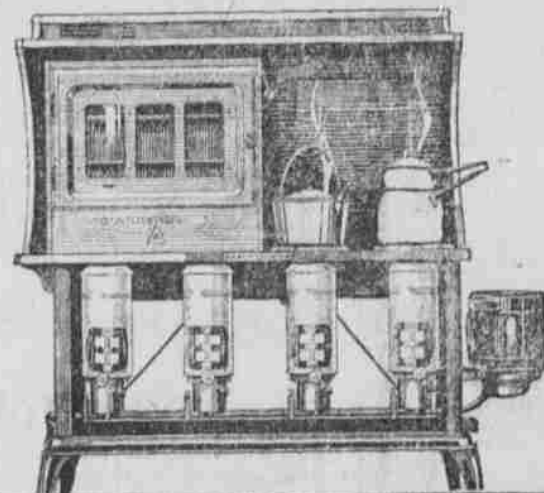

THE New Perfection Oven is scientifically designed. It has the most perfect system of oven ventilation yet devised.

First of all, it bakes evenly from all directions in the oven—top, bottom and all sides. Then, the doors are locked tightly at three points, thus preventing the loss of heat. The oven has glass windows through which the interior is visible at all times. These windows are not easily broken, except by accident, and can be readily and cheaply replaced with ordinary glass.

Cleanliness and economy, lightness, durability, perfect cooking with the least possible care and trouble—the New Perfection assures all of these. Which explains why this cook stove is more

popular than any other five makes combined.

Progressive dealers everywhere handle the New Perfection, because it is the most satisfactory oil cook stove made.

A Real Hair Saver

If your hair is falling out, prematurely gray, brittle, lifeless and full of dandruff, quick action must be taken to save it.

Get from any drug or toilet counter today a bottle of Parisian Sage and use as directed—there's nothing else so simple, safe and effective.

"Before going to bed I rub a little Parisian Sage into my scalp," says a woman, whose luxurious, soft and shiny hair is greatly admired. "It keeps away all dandruff—my hair is never dry, faded or scraggly, but retains its natural color and beauty."

Parisian Sage is inexpensive, and money refunded if not satisfactory. W. L. Gokay sells lots of it.—Advertisement.

ESTATE OF JOHN R. SMITH

District of Bennington, ss.
The Honorable Probate Court for the District Aforesaid:

To all persons interested in the estate of John R. Smith, late of Bennington, in said District, deceased:

WHEREAS, said Court has assigned the 11th day of May next for examining and allowing the account of C. N.
